Reheating Instructions

Option 1: Optimal reheating is by using sterno and water pans, keeping food on sterno will keep temperature and moisture.

Option 2: 350 degree oven, covered for approx 45 min - 1 hr. Maintain heat in the oven at 200 degrees covered. Ovens may vary. Do not overheat turkey. Best at room temperature with hot gravy on top. Gravy heat on stovetop, simmer, do not boil.
